SIDDAM ANJAIAH

Full Stack Developer | React.js & Node.js

Mancherial, Telangana | Open to relocate: Hyderabad, Bengaluru, Chennai | +91 9390098364

anjisiddam01@gmail.com | linkedin.com/in/siddam-anjaiah | github.com/Anji0522 | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building single-page applications in React and REST APIs in Node.js and Express. Has implemented JWT authentication, role-based access control (RBAC), Razorpay payment integration with webhook verification, and idempotent booking APIs in deployed projects. Completed 1,000+ hours of structured full-stack training. Open to relocation.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Styled Components, React Router, Context API

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, bcryptjs, Razorpay Webhooks

Databases: MongoDB (Mongoose), PostgreSQL, SQLite, MySQL

Tools & Testing: Git, GitHub Actions (CI/CD), Postman, React Testing Library, Vite

PROJECTS

ServiceNest – On-Demand Services Marketplace Live Demo | GitHub

React, Node.js, Express, SQLite, Razorpay

- Built a two-sided marketplace for customers and service providers with role-based access control (RBAC) and 15+ secured REST API endpoints.
- Designed an idempotent booking flow using custom request headers to prevent duplicate bookings and race conditions.
- Integrated Razorpay Checkout with HMAC SHA256 webhook signature verification to confirm payments securely.

MobiVerse India – Mobile & Accessories E-Commerce Platform Live Demo | GitHub

React 18, Express, MongoDB, Razorpay

- Built a catalog of 116+ smartphones and 696+ accessories with multi-criteria filtering and instant search.
- Developed a 4-way side-by-side device comparison tool with sticky headers that highlights spec differences.
- Added a doorstep repair booking system connected to a device trade-in valuation feature.

Nxt Watch & Book Hub – Authenticated Web Applications Live Demo

React, Context API, Styled Components, JWT

- Implemented cookie-based JWT authentication with reusable protected-route components and Context API state management.
- Built Light/Dark theme switching with Styled Components and wrote tests using React Testing Library.

TRAINING

Full Stack Development Trainee, NxtWave CCBP 4.0 Academy | 2024 – Present

- Trained in the MERN stack, data structures and algorithms, and deployment workflows.
- Built and deployed full-stack web applications with modular React components, REST APIs and automated CI/CD using GitHub Actions.
- Certificates: React JS, JavaScript Essentials, SQL Databases, Responsive Web Design, Python.

EDUCATION

B.Com (Computer Applications), Vivekavardhini Degree College, Mancherial | 2021 – 2026
